

# COST-EFFECTIVE PROTECTION

REDUCE THE COST TO OPERATE AND MAINTAIN YOUR COMMERCIAL BUILDINGS WHILE MAXIMIZING THE LIFE OF YOUR ELECTRICAL INSTRUMENTS

Commercial operations depend on consistent and reliable electricity. Time and money are spent when point of sale, elevators, HVAC systems and computers go down. With clean power you will greatly reduce down time, keeping your business operating.

## WHY CHOOSE **CLEAN-VOLT™**?

Commercial energy efficiency protection is summarized by lower electrical disturbances which optimizes the life span of your working devices.

### **INCREASED** PRODUCTIVITY

Reduces IT problems caused by spikes and surges in your network.

### **ULTIMATE PROTECTION**

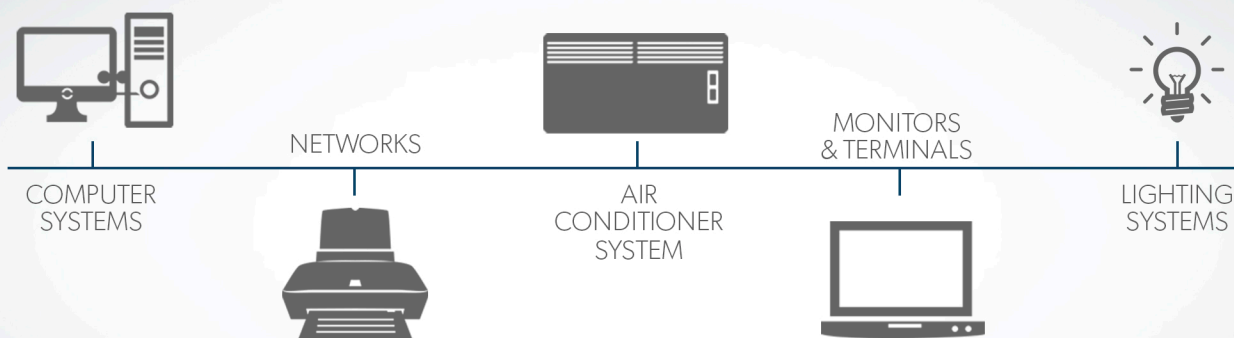

The only solution capable to trip the main breaker in emergencies and automatically protects your commercial technological equipment.

### **RETURN** ON INVESTMENT

Generates a cash economy through reduced maintenance costs and a lifetime of optimal equipment.

## ESTIMATE HOW MUCH **YOU HAVE INVESTED** IN YOUR EQUIPMENT
