

CLEAN  VOLT™

AUTOMATION... AT WHAT PRICE?

PROTECT YOUR INVESTMENT AGAINST POWER SURGES WHILE MAXIMIZING
THE LIFE OF YOUR EQUIPMENT AND REDUCING YOUR DOWNTIME

Lighting. Electric motors. Automated assembly lines. Your entire operation depends upon electricity. Installing protection that cleans dirty power, giving unwanted power surges a path of least resistance to follow away from your equipment and having the ability to sacrifice itself in a catastrophic event, is necessary for an efficient operation.

WHY CHOOSE **CLEAN-VOLT™**?

Industrial energy efficiency is summarized by optimizing your electricity based on optimum electrical system.

INCREASED PRODUCTIVITY

Reduced downtime and maintenance costs caused by spikes and surges in your network.

ULTIMATE PROTECTION

Completely protects your computers and production equipment.

PEACE OF MIND

Make sure that you will never have an unexpected bad surprise.

ESTIMATE HOW MUCH **YOU HAVE INVESTED** IN YOUR EQUIPMENT

Annually, in North America, up to an estimated amount of 26 billion dollars in losses is caused by electrical surges.
